

The Total Digital Connection

Presented by Dr. Dean C. Vafiadis, Prosthodontist,
Program Director Full Mouth Rehabilitation NYU-CE
Tuesday, October 10, 2017 • 3 CE Credit Hours

COURSE DESCRIPTION

Why go digital? It makes everything easier! Learn how integrating digital technology into every step of your clinical workflow and implant practice can enhance the patient experience. A digital workflow can help deliver predictable, quality dentistry, improve office efficiency and productivity, and leave a positive impression on your dental implant patients. Diagnosis, CBCT-scan planning and treatment sequencing for implant patients can become seamless and predictable. Dr. Vafiadis will detail the total digital experience, including check in, digital scanning, 3D imaging, and the end result of a restored smile, demonstrating how every aspect of your practice can enhance the patient experience with digital dentistry.

LEARNING OBJECTIVES

- What is a Digital Office?
- How the digital experience is different from an analog experience
- Clinical benefits of a digital check-in including improved file accuracy and office inter-connectivity
- Diagnosis and CBCT scanning and planning from scan to completion.
- Anterior implant steps for success
- Patient benefits including increased patient acceptance and improved diagnostics with digital sensors, intraoral scanners, digital impressions and 3D imaging
- How digital impressions are faster and more comfortable for the patient and provide better fitting restorations, while in turn helping you increase productivity
- Occlusion and complex restorations: How you can improve your confidence in the big cases

Dr. Dean C. Vafiadis

Dr. Dean Vafiadis received his dental degree and Prosthodontic specialty training at New York University College of Dentistry. He is currently the Director of the Full-Mouth Rehabilitation CE course at NYU. He is an Associate Professor of Prosthodontics at NYU College of Dentistry. He has lectures

nationally and abroad for the NYU Continuing Education department. Dr. Vafiadis published and lectured on various topics such as Aesthetics, Implant designs, Computer restorations, Ceramic materials and Occlusion. He is the founder of the New York Smile Institute in New York, an educational center, full service laboratory and learning facility as well as a private practice location for a multi-specialty practice for Implant and Aesthetic Dentistry. Currently he is lecturing for the Continuing Education program at NYUCD for Dental Districts in the US, Europe and Asia. His patient base includes many celebrities, sports figures, Fortune 500 company executives, producers, directors and writers in the film industry, executives in the fashion world and world renowned chefs and restaurant owners. He maintains his private practice Valentino Building near Rockefeller Center. He is currently on a World Tour of Digital Realities of Dentistry, lecturing at 38 cities, 7 countries and 3 continents. Vafiadis's primary professional mission is to educate, publish and invent new technologies that will help change the dental profession and patient's lives.
