# Emerging Technologies for Optimized Dental Implant Esthetics

## PRESENTED BY DR. CRAIG MISCH

Join us for a unique presentation designed to help you discover creative solutions to today's complex dental implant cases. Dr. Craig Misch, Oral Maxillofacial Surgeon, Prosthodontist and world renown speaker, will present methods and materials designed to tackle some of the biggest challenges in implant dentistry, ranging from immediate and full arch treatment to digital work flow.

Topics include:

- Improving your implant/prosthetic results
- Maintaining stable crestal bone & gingival levels
- Immediate implant placement & temporization
- Combining hard & soft tissue grafting for optimal implant esthetics
- Contemporary methods for augmentation of deficient alveolar ridges
- Identifying candidates for full arch reconstruction
- Digital workflow & techniques to improve profitability

**Craig M. Misch, DDS, MDS**
