

PRF™ Workshop: Technique Overview to Clinical Applications

Presented by Dr. Robert Miller
Saturday, November 17 • 7 CE Credit Hours

COURSE DESCRIPTION

This lecture/hands-on workshop will present the background, science, applications and methodologies regarding the use of PRF™ membranes. Clinical cases will be shown to further illustrate the techniques and results that can be derived from its use. The hands-on workshop will enable participants to become familiar with the membrane-forming apparatus and the various techniques that are utilized when creating and manipulating PRF™ membranes.

Upon completion of the hands-on workshop, participants will have a better understanding of the physiological mechanisms that are pertinent to the membrane formation taking place during augmentation procedures. Furthermore, they will become more familiar with the strategies that enable PRF™ to be a beneficial aid during the healing process. Participants will also have the opportunity to work with the membrane-forming armamentarium and to employ the techniques necessary for the fabrication of PRF™ membranes and their correct clinical placement.

SCHEDULE

Saturday, November 17, 2018
8:00am - 9:00am Registration
9:00am - 5:00pm Lecture
Continental breakfast and lunch provided

VENUE

Hampton Inn Philadelphia
Plymouth Meeting
2055 Chemical Rd.
Plymouth Meeting, PA 19462

TUITION

\$495
