# Dead Sea Summit

lowest point on earth, highest level of education

We would like to invite you to the 2018 Dead Sea Summit. Our goal is to provide an invaluable learning experience and opportunity to spend quality time with your colleagues in a relaxing environment. With topics that include implant complications, maintaining healthy tissue around implants and full arch rehabilitations, this Summit promises to cover a wide range of contemporary issues in implant dentistry and tissue regeneration.

At 430 meters below sea level, you can enjoy the Dead Sea's therapeutic black mud while relaxing in a very soothing environment. The Dead Sea today is an enticing destination to international visitors as it once was to kings and emperors in the past. Please join us and discover for yourself what this meeting and the Dead Sea can offer!

## speakers

Dr. Qusai Alkhasawnah

Dr. Tareq Abu Saleh

Dr. Jawad Abdelhaq

Dr. Mohammad Al Rabab'ah

Dr. Ra'ed Suleiman Abu Al-Hasan

Dr. Mohammad Al Tarawneh
