A Paradigm Shift in Immediate Implant Placement: From Single Implant to FP1 Rehabilitation

Dr. Ramón Gómez-Meda
La Coruña, Spain
17-19 June 2024

A Paradigm Shift in Immediate Implant Placement: From Single Implant to FP1 Rehabilitation

Course Description:

The goal is to explain the diagnosis and digital protocol along with the prosthetic and periodontal planification, in order to get ideal emergence profiles, avoiding the use of hybrid dentures if possible. We emphasize the importance of soft tissue grafts to get esthetic and stable results and the efficiency and predictability of the results with the use of digital planning from the diagnosis to the treatment execution.

Day 1

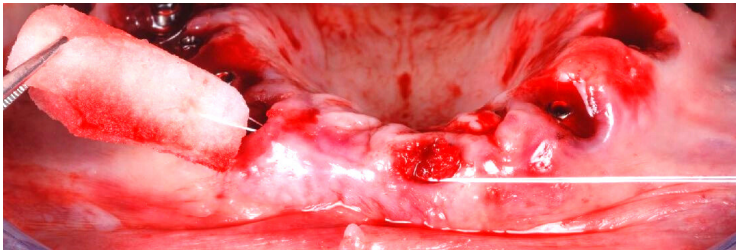

9:00–11:00am	<ul style="list-style-type: none">• The current situation of implantology: more frequent aesthetic complications and how to prevent them• Mucogingival Surgery Techniques in Implantology: long term results
11:00–11:30am	Break
11:30am–1:00pm	<ul style="list-style-type: none">• Different Approaches: delayed implant, immediate implant, and temporary restoration• Socket Preservation: when, how and why?• Protocol for immediate implants in infected sites
1:00–2:00pm	Lunch Break
2:00–3:30pm	<ul style="list-style-type: none">• Bone regeneration in post-extraction sites• Soft tissue grafting in post-extraction sites
3:30– 4:00pm	Break
4:00– 5:30pm	<ul style="list-style-type: none">• Pontic site reconstruction• Digital protocol: scanning and milling of the provisional

Day 2

9:00–11:00am	<ul style="list-style-type: none">• Immediate Implants: different clinical situations; advantages and disadvantages; minimalist approach• Surgical technique and drilling protocol
11:00–11:30am	Break
11:30am–1:00pm	<ul style="list-style-type: none">• Immediate temporary restoration• “The 3-step and 2-step Technique” by Dr. Meda: step by step protocol, including videos and discussion on limitations to the technique• How to keeping and create the emergence profile: customized healing cup & the EBC concept
1:00–2:00pm	Lunch Break
2:00–4:00pm	<ul style="list-style-type: none">• Hands-On: perform a tunneled connective tissue graft in a pig jaw
4:00–4:30pm	Break
4:30–7:00pm	<ul style="list-style-type: none">• Hands-On: Shape the emergence profile in the provisional

Day 3

9:00–11:00am	<ul style="list-style-type: none">• Digitally assisted full-mouth immediate implant supported rehabilitation with a mucogingival approach• Diagnosis and treatment planning; software and digital planification• Guided Surgery: when, why and how?
11:00–11:30am	Break
11:30am–1:00pm	<ul style="list-style-type: none">• Prosthetic protocol: how to build the ideal temporary restoration, PMMA provisional, and pontic management• Periodontal Protocol: mucogingival surgery in order to avoid a hybrid denture• How to get the ideal emergence profile• Techniques to solve esthetic complications

Dr. Ramón Gómez-Meda

Dr. Ramón Gómez Meda received his degree in dentistry from the University of Santiago de Compostela, Spain. He was the recipient of the Thesis Award from the Autonomous Community of Galicia for Academic Excellence.

He performed postgraduate training in Periodontics and Implantology in Madrid, Occlusion and Temporomandibular Dysfunction in Valencia and Orthodontics in Santiago de Compostela.

Dr. Gomez Meda is an international speaker on Periodontics, Esthetic Dentistry and Multidisciplinary Treatments. He is also an Adjunct Assistant Professor of the Department of Prosthodontics at LSUHSC School of Dentistry (New Orleans, Louisiana, USA). He is the Founder of MEDA Training Center, in Ponferrada with an additional branch location in La Coruña, Spain.
